

## ACRYLIC SOLUTIONS FOR RETAIL & BEYOND

IDD is equipped with cutting-edge machinery tailored for precision in acrylic fabrication.

### Why Acrylic?

Acrylic sheet products come in a wider array of colors than any other plastic material and are easily available in custom colors or with special effects. InStore Design Display offers a diverse selection of acrylic products, including sheets, rods, and extrusions. Acrylic (PMMA) is a durable, highly transparent solid material that can be easily machined with standard woodworking and plastic fabrication tools, making it an excellent alternative to glass.

### IDD's Quick Response

**Prototyping and design services**

**Fast turnaround time**

**Manufacturing facilities centrally located in the US**

**Low minimum order quantity**

### Acrylic is widely use for:

**Indoor and outdoor signs**

**POP displays and museum exhibits**

**Shelves and retail fixtures**

**Frames and display cases**

*See backside for our sample acrylic display catalog.*

“

**What sets InStore Design Display apart** is their commitment to creativity and innovation. They provide unique, tailored solutions that align perfectly with your vision. Their attention to detail in materials and color schemes is remarkable. Fully invested in your company's needs, they ensure your brand stands out at the retail level. This team is top-notch and the ideal merchandising partner.
